

PEETIE'S BOOK, Metal transfers and surface design on canvas pages

SUPPLIES

Please read the supply list now and collect your supplies early. You may have to order some things online, please allow plenty of time for this. I ask that you bring these exact supplies to class because I have tested them and know they will work for this specific project. I will never ask you to bring something that we won't use in class. If you have trouble finding anything, or if you have any questions, please contact me at least one week prior to class at lklight@copper.net.
