PAPER

SCRAP PAPER

An old magazine or telephone book works well for catching glue and spills.

SANDPAPER

coarse, 1 sheet cut into 6 smaller pieces.

WAXED PAPER

One or two feet

3 IMAGES COPIED ON A LASER PRINTER

About 6 x 3", must be printed on a laser copier on to cheap copy paper.

These can be color or black & white with high contrast and focal point should be fairly large.

These will be used for your metal transfers.

SMALL IMAGES

10-15 images, 6x3 inches or smaller, to be used as a focal point on your cards.

A nice variety of ephemera. Ledger pages, old envelopes or letters, vintage book pages all work well. The thinner the paper the easier it will be to work with. Stay away from cards, postcards and heavier card stock.
